

How to create a new Apple ID on your iPhone or iPad

An Apple ID is basically an account that lets you download and install apps and games from the App Store, purchase music, movies, and books from iTunes, sync Calendars, Reminders, and Contacts through iCloud, and use FaceTime and iMessages in the Messages apps. Though it's possible to have an Apple device without having an Apple ID, it's essential to getting the most out of the Apple ecosystem. It's easy to sign up and doesn't cost anything (unless you start buying content, of course). Here's how to sign up for a new Apple ID.

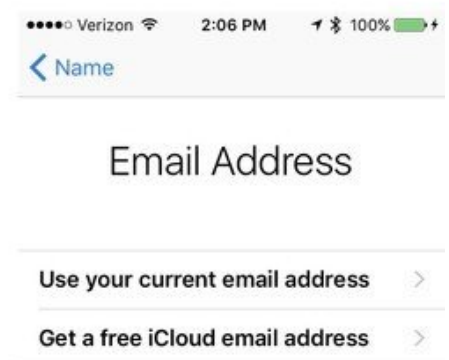

- Launch the **Settings** app.
- Tap **Sign in to your iPhone** at the top of the screen.

- Tap **Don't have an Apple ID or forgot it?**
- Tap **Create Apple ID** when the window pops up.

- Enter a **birth date**.
- Tap **Next**.
- Enter your **first and last name**.
- Tap **Next**.
- Select your current **email address** or get a new iCloud email address.

July	30	1976
August	31	1977
September	1	1978
October	2	1979
November	3	1980
December	4	1981
January	5	1982

- Enter your **email address**.
- Create a **password**.
- Verify the **password**.
- Select a **security question**.
- Type in **answer**.
- Repeat two more times.

Enter Email Address

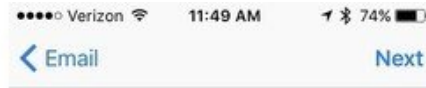

Email lory@iMore.com

This will be your new Apple ID.
