

How to reset your Home Screen layout

Want to go back to Apple's default app layout? Resetting your Home screen will move all default apps to the foremost Home screen and dump all third-party apps on subsequent screens. It won't reset your wallpaper, however, or delete any of your apps.

1. Launch the **Settings**
2. Tap **General**.
3. Tap **Reset**. It's all the way at the bottom.
4. Tap **Reset Home Screen Layout**. You may have to re-enter your passcode to do so.

Note : If you are not Tech Savvy or not sure/aware of technical stuffs, suggest you to contact your Technical Professionals @ 13 Tech to handle the situation and provide a solution.
