## Restart your Printer services in Windows (Print Spooler issue)

Solve Printer issues such as spooler service error, spooler keeps stopping or Printer crashing automatically due to spooler issue.

- Open services tab in Task Manager
- Then locate **Spooler** in the services (This is the program which manages your Printer function)
- Right-click on the Spooler
- Click **Restart** from the options

HUITE	110	ocsciption		oroup
